

Board Request for Approval of Craft or Value Added Items

All craft items must go through the board approval process prior to selling at the market. Craft items must be handmade agrarian based products (eg. items made from land based items such as clay or wool, or other naturally occurring agricultural product). Vendors are approved for one season only.

We do not allow ANY re-selling of any items at the market. All items used in the creation of value added products that are purchased must be declared by the vendor (ie. Glycerin for soap making).

All requests must be made by June 1, 2017 to ensure board approval prior to the market season. Applications submitted after this date cannot be guaranteed board review during the market season.

Vendor Name/s: _____

Mailing Address: _____

Business: _____

Phone Number/s: _____
